Primary Young Scientist Competition

Well done to the girls in 6th class who have qualified for the Primary Young Scientist virtual exhibition in January 2021. Their project titled, 'Bio-diversity in our Area' discusses how small changes to an area can transform and improve sustainability and biodiversity to the local environment. They built a 'Bug Hotel, nesting bird boxes, bird feeder box, a beebomb wild flower area and were kindly donated a butterfly hotel which they designed and coloured. The group will go before the judging committee on the first week of January to explain their findings, recordings and to discuss their hypothesis. We wish them the very best of luck
