CHILD PROTECTION

All partners in Education have a responsibility to the children in our care and ensuring their wellbeing and safety at all times.

New Child protection laws came into being on 11th March 2018 for all schools, and all schools had to undertake a child safety risk assessment. The draft copy of our child safety risk assessment is available for viewing on our school website:- www.newinngirlsschool.ie. This draft copy has been brought to the attention of the Parents Council at their meeting on Wednesday 21st March and following feedback will be ratified by the Board of Management at the next Board meeting on 9th April 2018.

ADMINISTRATION OF MEDICINES

As per our Administration of Medicine policy teachers will not administer medication to pupils in school. However if a written note is given the teachers will supervise the child self administering medication. It has come to our attention that from time to time pupils have inhalers and other medication in school. Please note it is not safe for any child to keep medication in his/her school bag. The teacher should be informed in writing if a child is bringing medication to school and this medication is to be stored in a safe area in the office until the child requires it. Teachers cannot be responsible for other children inadvertently accessing your child's medication.

COLLECTION OF CHILDREN AT HOME TIME

In the interest of your child's safety it is important that he/she knows who is collecting him/her or if he/she is going to "After School" or going home on the bus. Please ensure your child is aware of what his/her home-time arrangements are.
