3rd to 6th class took part in the Bebras Challenge. The Bebras® Computing Challenge introduces computational thinking to students, by allowing them to solve interactive tasks online. It is run in over 60 countries and takes place every November. The tasks can be answered without prior knowledge about computational thinking or information and communication technology. The aim of Bebras is to get students all over the world excited about computing.

We hope some of our pupils will qualify for the All-Ireland finals next year.
