Parents are an essential element in the structure of the school and as such it is policy to involve them in as many aspects of the school life as is possible. Their opinions both formal and informal will be given due consideration and their offers of help will always be welcome. It is the intention of the school management that parents feel that they are an integral part of the school, that their opinions are always welcome and that their children are receiving the type of education that they are happy with. It is also policy that parents feel comfortable about being part of the school, meeting teachers and being concerned about their children's welfare and development.
