

Summer in Ireland

Summer in Ireland lasts for three months (May, June and July). It begins on May Day which is the 1st May each year. It ends on 31st July. It comes after spring and before autumn.

Irish Weather in the Summer

The weather in Ireland is very mild. This means it doesn't get too cold or too hot. In the winter, the weather gets colder but it is rare to see heavy snow. During the summer, the days get warmer but it doesn't usually get hotter than 20°C. In June and July it is light for almost 18 hours each day. It only gets dark after 11 p.m.

Plants and Animals

In winter, many animals in Ireland go into a deep sleep called hibernation. Lots of birds leave Ireland for warmer countries during winter. However, during the summer, Irish wildlife is at its most active. Foxes, squirrels, badgers and bats can be found all across Ireland.

Honeybees are busy collecting pollen to make honey during the summer months and dragonflies can be seen near rivers and lakes. Summer is also the season for butterflies in Ireland.

During the summer, the Irish countryside is decorated by many different kinds of wildflowers, including daisies, clover and buttercups.

What Do People Do in Ireland During the Summer?

Children get their summer holidays at the end of June. Many art and music festivals are held during the summer months. Fleadh Cheoil na hÉireann is generally held during August and is a week dedicated to celebrating Irish music and culture.
